## **GAL ALUMINIUM EXTRUSION PVT. LTD.**

[www.galaluminium.in](http://www.galaluminium.in)

## About Us

**Gal Aluminium Extrusion** has been pioneering aluminium extrusion industry since 1992 & today it is one of the top aluminium extrusion suppliers in India. To cater to the today's market needs, we have imported advanced production lines and Extrusion Press from Taiwan and also Casting Hot Pot System from China.

GAL Group has always committed for quality parameters and fulfilled that commitments. By sowing seeds of hard work, advancement, innovation and maintaining quality commitments. We have reaped the fruits of being awarded an ISO 9001:2015, ISO 14001: 2015 and OHSAS 18001:2017 certificates.

## **Founders of 'GAL GROUP'**

**Late Paras Motilalji Lodha**

**Late Rajendra Motilalji Lodha**

Today the three strong pillars of GAL Group are:

**Mr. Paresh Lodha | Mr. Pritesh Lodha | Mr. Jitendra Lodha**

## **MISSION**

Gal Aluminium Extrusion Pvt. Ltd. (Gal Group) focuses on total customer satisfaction worldwide through innovative, custom-engineered solutions for all technical challenges, technical excellence, quality, as well as on-time delivery and services.

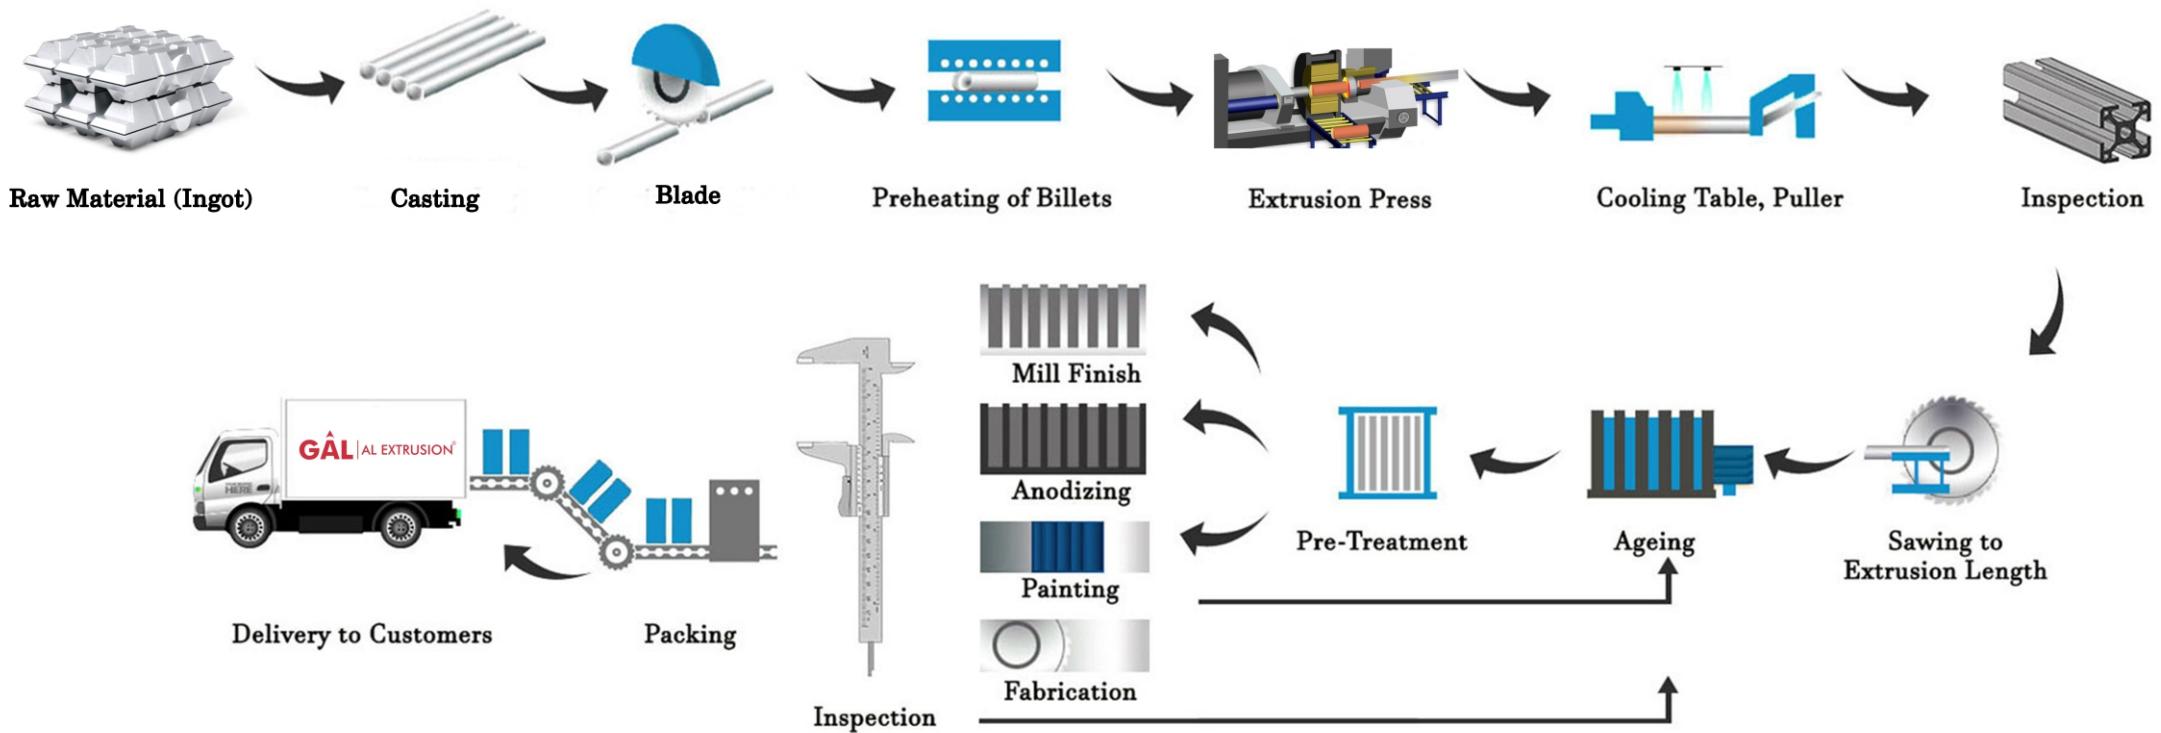

## **VISION**

We focus on total customer satisfaction in Aluminium Extrusion Profiles through our innovative engineering & customized solutions. We need to deliver precise output despite of technical challenges. We are committed to perform with technical excellence, quality, as well as on-time delivery and services.

## **VALUES**

- LOYALTY to customers, employees, suppliers and community.
- COMMITMENT to excellence of products and services.
- EFFICIENCY by applying highest excellence in using best resources.
- INNOVATION by creating revolutionary products and service.
- MOTIVATION to perpetually improve service and products

# **QUALITY**

We are committed for quality & maintaining time lines. Our Quality Control Team takes charge right from raw material to shipment of finished goods.

- Our quality policies ensure total client satisfaction, timely delivery & other functional requirements.
- Inspection of raw materials through 'Direct Reading Optical Emission Spectrometer.'
- Latest devices like Jig Boring machines, EDM wire cut machines, Spark Erosion machines & numerous other CNC equipments.
- Dies manufactured from high quality H13 grade imported steel & hardened in vacuum heat treatment furnaces.
- Logs homogenized before heating for finer quality finish.
- Ageing (thermal treatment) conducted with accurately controlled temperature using high velocity air oven.
- Random inspection of product done as per customer approved drawings.
- Conveyor system for complete handling process.

# **KEY GROWTH STRATEGIES**

## **Robust Processes**

Defining and developing effective and efficient core business processes.

## **Strong Core Values**

Developing accepted fundamental principles that motivate the organization and drive decision making.

## **Market Segmentation**

Picking up as Subset of the entire market place that you can organize your sales efforts around.

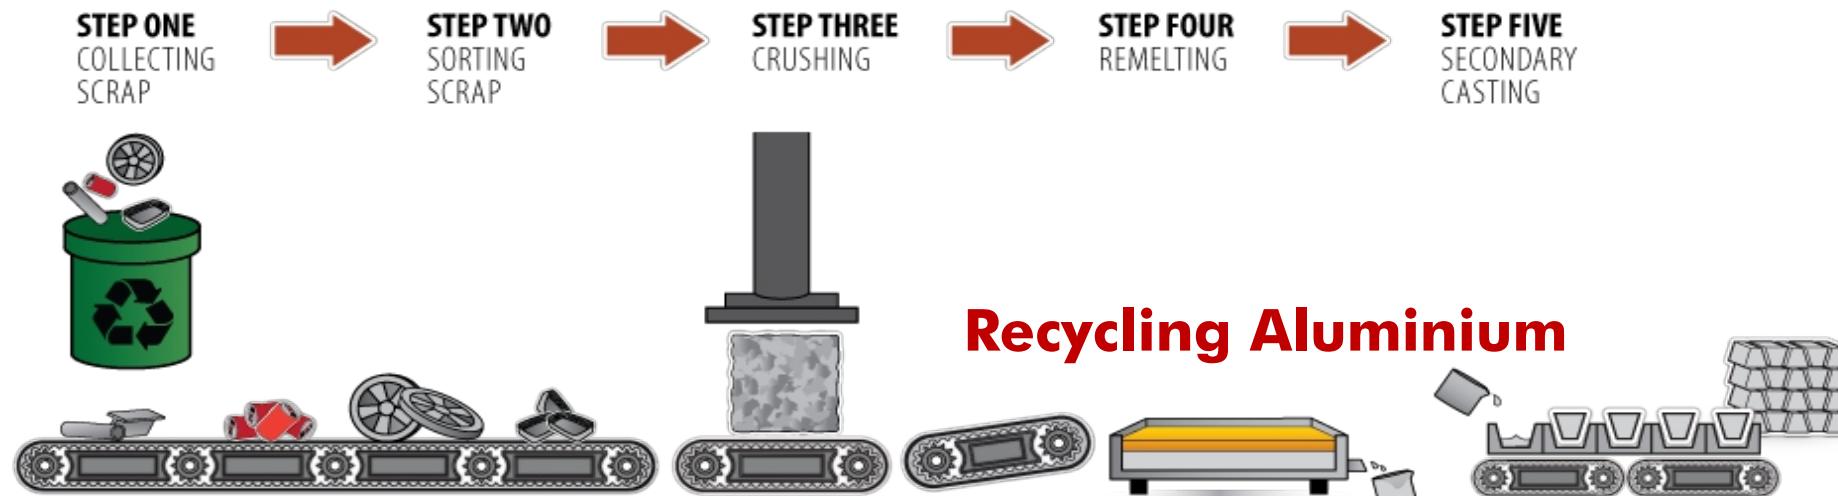

## **Establish a Value Proposition**

Understanding what sets the organization apart from other competitors.

## **Focus on Strengths**

Some times focusing on your strengths ratherthan trying to improve your weaknesses; can help you establish growth strategies.

# OUR GREEN ETHOS

- Aluminium is infinitely recyclable. In fact, nearly 75% of all aluminium ever produced is still in use today.
- We are an environment friendly manufacturer and source 30% of our power requirement from our captive 1.25MW Wind Power Project.
- We are now in the process of expanding our wind power capacities to fulfill 100% of our requirements.
